Health Canada has authorized Moderna Spikevax and Pfizer-Biontech Comirnaty COVID-19 vaccines for children 6 months to under 5 years.

About COVID-19

- Most children who get COVID-19 have mild symptoms. However, some children may have severe symptoms and require hospitalization.
- Vaccination is one of the most effective ways to protect our families, communities and ourselves against COVID-19.
- Evidence shows that vaccines help to reduce severe illness, hospitalization and death from COVID-19.
- Talk to your healthcare provider about how long children should wait to get their COVID-19 vaccine after having COVID-19 symptoms or testing positive for COVID-19.

Where to get the COVID-19 vaccine

- For ages 6 months to under 2 years old, available at select pharmacies and primary care offices in Peel.
- For ages 2 to under 5, available at select pharmacies, primary care offices and select Peel Public Health clinics.
- Check peelregion.ca/covid19vaccine to find a location.

Parents and caregivers with questions are encouraged to speak with their health care provider or call the Provincial Vaccine Contact Centre at **1-833-943-3900** to speak to a health specialist or contact **1-888-304-6558** or vaccine.consults@sickkids.ca to book a confidential phone appointment with a SickKids Registered Nurse.
